## **More about babies**

Babies are born with a natural ability to learn and grow. They are constantly exploring their environment and taking in new information. In the first few months of life, babies learn to recognize faces, respond to sounds, and control their movements. By the time they are one year old, babies can understand simple words, walk, and feed themselves.

Babies are also very social creatures. They love to interact with other people and learn from them. Babies learn to communicate through crying, cooing, and babbling. By the time they are one year old, babies can say a few words and understand simple sentences.

Babies are a joy to watch and interact with. They are full of life and energy, and they are always learning and growing. If you are lucky enough to have a baby in your life, cherish every moment. Babies grow up so fast, so make sure to enjoy every minute with them.
