Donald Trump's victory in the 2016 election was one of the most stunning upsets in American history. No one saw it coming, not the pundits, not the pollsters, and not even Trump himself. In his new book, *We Didn't See This Coming*, journalist Michael Wolff provides a gripping narrative of the 2016 election and its aftermath, drawing on extensive interviews with key players and insiders.

Wolff argues that Trump's victory was the result of a perfect storm of factors, including the rise of populism and nationalism, the decline of trust in institutions, and the media's failure to understand the anger and frustration of many Americans. He also argues that Trump's own unique personality and skills played a major role in his victory.

We Didn't See This Coming is a must-read for anyone who wants to understand the forces that shaped the 2016 election and its implications for the future of American politics. It is a revelatory and deeply disturbing book that will leave you questioning everything you thought you knew about American politics.
